

## Datasheet for ABIN2278423

## anti-GUCY antibody (Soluble)

## Overview

| Quantity:                   | 1 mg  |
|-----------------------------|---|
| Target:                     | GUCY  |
| Binding Specificity:        | Soluble   |
| Reactivity:                 | Human   |
| Host:                       | Mouse   |
| Clonality:                  | Monoclonal  |
| Conjugate:                  | This GUCY antibody is un-conjugated                           |
| Application:                | ELISA, Western Blotting (WB)                                  |
| Product Details             |   |
| Immunogen:                  | Recombinant human soluble guanylate cyclase a1b1 heterodimer. |
| Clone:                      | 5E790   |
| Isotype:                    | lgG2a   |
| Cross-Reactivity:           | Human   |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                               |
| Characteristics:            | Guanylate Cyclase, Soluble (sGC)                              |
| Purification:               | Purified by Protein A affinity chromatography.                |
| Target Details              |   |
| Target:                     | GUCY  |

## **Target Details** Guanylate Cyclase Alternative Name: **Application Details** Optimal working conditions should be determined by the investigator. Application Notes: Restrictions: For Research Use only Handling Format: Liquid Buffer: Supplied as a liquid in PBS, pH 7.4, 0.09 % sodium azide. Preservative: Sodium azide This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which Precaution of Use: should be handled by trained staff only.
