

Datasheet for ABIN2278576

**anti-Glycogenin 2 antibody (C-Term)**[Go to Product page](#)

## Overview

|                      |                                             |
|----------------------|---------------------------------------------|
| Quantity:            | 200 µL                                      |
| Target:              | Glycogenin 2 (GYG2)                         |
| Binding Specificity: | AA 456-483, C-Term                          |
| Reactivity:          | Human                                       |
| Host:                | Rabbit                                      |
| Clonality:           | Polyclonal                                  |
| Conjugate:           | This Glycogenin 2 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA                |

## Product Details

|                             |                                                                                                                                                                 |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | GYG2 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 456-483 amino acids from the C-terminal region of human GYG2. |
| Isotype:                    | IgG                                                                                                                                                             |
| Cross-Reactivity:           | Human                                                                                                                                                           |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                 |
| Characteristics:            | GYG2, CT (GYG2, Glycogenin-2)                                                                                                                                   |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                  |

## Target Details

|         |                     |
|---------|---------------------|
| Target: | Glycogenin 2 (GYG2) |
|---------|---------------------|

## Target Details

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Alternative Name: | GYG2 ( <a href="#">GYG2 Products</a> )            |
| NCBI Accession:   | <a href="#">NP_001073324</a>                      |
| UniProt:          | <a href="#">O15488</a>                            |
| Pathways:         | <a href="#">Cellular Glucan Metabolic Process</a> |

## Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
