

Datasheet for ABIN2281554  
**anti-HIF1AN antibody (N-Term)**

[Go to Product page](#)

## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 200 µL                                |
| Target:              | HIF1AN                                |
| Binding Specificity: | N-Term                                |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This HIF1AN antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|                             |                                                                                                                                                        |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Synthetic peptide selected from the N-terminal region of human HIF1AN (KLH).                                                                           |
| Isotype:                    | IgG                                                                                                                                                    |
| Cross-Reactivity:           | Human                                                                                                                                                  |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                        |
| Characteristics:            | HIF1AN, NT (Hypoxia-inducible Factor 1 alpha Inhibitor, Hypoxia-inducible Factor Asparagine Hydroxylase, Factor Inhibiting HIF-1, FIH-1, HIF1AN, FIH1) |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                         |

## Target Details

|         |        |
|---------|--------|
| Target: | HIF1AN |
|---------|--------|

## Target Details

|                   |                                                                                              |
|-------------------|----------------------------------------------------------------------------------------------|
| Alternative Name: | HIF1AN ( <a href="#">HIF1AN Products</a> )                                                   |
| NCBI Accession:   | <a href="#">NP_060372</a>                                                                    |
| UniProt:          | <a href="#">Q9NWT6</a>                                                                       |
| Pathways:         | <a href="#">Regulation of Muscle Cell Differentiation, Skeletal Muscle Fiber Development</a> |

## Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, 0.09 % sodium azide.                                                                      |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
