

Datasheet for ABIN2283402

**anti-HMGB3 antibody (Center, Internal Region)**[Go to Product page](#)

## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 200 µL                               |
| Target:              | HMGB3                                |
| Binding Specificity: | AA 49-79, Center, Internal Region    |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This HMGB3 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

## Product Details

|                             |                                                                                                                                                              |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | HMGB3 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 49-79 amino acids from the Central region of human HMGB3. |
| Isotype:                    | IgG                                                                                                                                                          |
| Cross-Reactivity:           | Human                                                                                                                                                        |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                              |
| Characteristics:            | HMGB3, ID (HMGB3, HMG2A, HMG4, High mobility group protein B3, High mobility group protein 2a, High mobility group protein 4)                                |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                               |

### Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | HMGB3                                    |
| Alternative Name: | HMGB3 ( <a href="#">HMGB3 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_005333</a>                |
| UniProt:          | <a href="#">O15347</a>                   |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
