## Overview

|                      |                                            |
|----------------------|--------------------------------------------|
| Quantity:            | 200 µL                                     |
| Target:              | Homeobox C5 (HOXC5)                        |
| Binding Specificity: | AA 139-167, C-Term                         |
| Reactivity:          | Human                                      |
| Host:                | Rabbit                                     |
| Clonality:           | Polyclonal                                 |
| Conjugate:           | This Homeobox C5 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA               |

## Product Details

|                             |                                                                                                                                                                         |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Mouse Hoxc5 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 139-167 amino acids from the C-terminal region of Mouse Hoxc5. |
| Isotype:                    | IgG                                                                                                                                                                     |
| Cross-Reactivity:           | Human, Mouse (Murine)                                                                                                                                                   |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo                                                                                                                                      |
| Characteristics:            | Hoxc5, CT (Hoxc5, Hox-3.4, Hoxc-5, Homeobox protein Hox-C5, Homeobox protein Hox-3.4, Homeobox protein Hox-6.2)                                                         |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                          |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | Homeobox C5 (HOXC5)                      |
| Alternative Name: | Hoxc5 ( <a href="#">HOXC5 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_783857</a>                |
| UniProt:          | <a href="#">P32043</a>                   |

## Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
