

Datasheet for ABIN2302077

**anti-Kelch-Like 4 antibody (N-Term)**[Go to Product page](#)

## Overview

|                      |                                             |
|----------------------|---------------------------------------------|
| Quantity:            | 200 µL                                      |
| Target:              | Kelch-Like 4 (KLHL4)                        |
| Binding Specificity: | AA 83-113, N-Term                           |
| Reactivity:          | Human                                       |
| Host:                | Rabbit                                      |
| Clonality:           | Polyclonal                                  |
| Conjugate:           | This Kelch-Like 4 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA                |

## Product Details

|                             |                                                                                                                                                                   |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | KLHL4 antibody is generated from rabbits immunized with a KLH conjugated synthetic between 83-113 amino acids selected from the N-terminal region of human KLHL4. |
| Isotype:                    | IgG                                                                                                                                                               |
| Cross-Reactivity:           | Human                                                                                                                                                             |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                   |
| Characteristics:            | KLHL4, NT (KLHL4, KIAA1687, Kelch-like protein 4)                                                                                                                 |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                    |

## Target Details

|         |                      |
|---------|----------------------|
| Target: | Kelch-Like 4 (KLHL4) |
|---------|----------------------|

### Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Alternative Name: | KLHL4 ( <a href="#">KLHL4 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_061990</a>                |
| UniProt:          | <a href="#">Q9C0H6</a>                   |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
