

Datasheet for ABIN2303403

**anti-Leupaxin antibody (Center, Internal Region)**[Go to Product page](#)

## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 200 µL                                  |
| Target:              | Leupaxin (LPXN)                         |
| Binding Specificity: | AA 228-257, Center, Internal Region     |
| Reactivity:          | Human                                   |
| Host:                | Rabbit                                  |
| Clonality:           | Polyclonal                              |
| Conjugate:           | This Leupaxin antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA            |

## Product Details

|                             |                                                                                                                                                              |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | LPXN antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 228-257 amino acids from the Central region of human LPXN. |
| Isotype:                    | IgG                                                                                                                                                          |
| Cross-Reactivity:           | Human, Mouse (Murine)                                                                                                                                        |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo                                                                                                                           |
| Characteristics:            | LPXN, ID (LPXN, LDLP, Leupaxin)                                                                                                                              |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                               |

## Target Details

|         |                 |
|---------|-----------------|
| Target: | Leupaxin (LPXN) |
|---------|-----------------|

### Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Alternative Name: | LPXN ( <a href="#">LPXN Products</a> ) |
| NCBI Accession:   | <a href="#">NP_004802</a>              |
| UniProt:          | <a href="#">O60711</a>                 |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
