

## Datasheet for ABIN2307180 **anti-MAP4K3 antibody**

[Go to Product page](#)

### Overview

|              |                                       |
|--------------|---------------------------------------|
| Quantity:    | 200 µL                                |
| Target:      | MAP4K3                                |
| Reactivity:  | Human                                 |
| Host:        | Mouse                                 |
| Clonality:   | Monoclonal                            |
| Conjugate:   | This MAP4K3 antibody is un-conjugated |
| Application: | Western Blotting (WB), ELISA          |

### Product Details

|                             |                                                                                                                                                             |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Mouse immunized with MAP4K3 recombinant protein (Q8IVH8)                                                                                                    |
| Clone:                      | 219CT8-3-1                                                                                                                                                  |
| Isotype:                    | IgM kappa                                                                                                                                                   |
| Cross-Reactivity:           | Human                                                                                                                                                       |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                             |
| Characteristics:            | MAP4K3 (MAP4K3, RAB8IPL1, Mitogen-activated protein kinase kinase kinase 3, Germinal center kinase-related protein kinase, MAPK/ERK kinase kinase kinase 3) |
| Purification:               | Purified by Euglobin precipitation                                                                                                                          |

### Target Details

|         |        |
|---------|--------|
| Target: | MAP4K3 |
|---------|--------|

## Target Details

Alternative Name: MAP4K3 ([MAP4K3 Products](#))

NCBI Accession: [NP\\_003609](#)

UniProt: [Q8IVH8](#)

Pathways: [MAPK Signaling](#)

## Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: -20°C
