## Overview

|                      |                                                |
|----------------------|------------------------------------------------|
| Quantity:            | 50 µg                                          |
| Target:              | NOSIP                                          |
| Binding Specificity: | AA 1-301                                       |
| Reactivity:          | Human                                          |
| Host:                | Mouse                                          |
| Clonality:           | Polyclonal                                     |
| Conjugate:           | This NOSIP antibody is un-conjugated           |
| Application:         | Western Blotting (WB), Immunofluorescence (IF) |

## Product Details

|                             |                                                                                     |
|-----------------------------|-------------------------------------------------------------------------------------|
| Immunogen:                  | Full length human NOSIP, aa1-301 (NP_057037.1).                                     |
| Isotype:                    | IgG                                                                                 |
| Cross-Reactivity:           | Human, Mouse (Murine), Rat (Rattus)                                                 |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo Rt                                               |
| Characteristics:            | NOSIP (Nitric Oxide Synthase-interacting Protein, eNOS-interacting Protein, CGI-25) |
| Purification:               | Purified by Protein A affinity chromatography.                                      |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | NOSIP                                    |
| Alternative Name: | NOSIP ( <a href="#">NOSIP Products</a> ) |

Target Details

NCBI Accession: [NM\\_015953, NP\\_057037](#)

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2.

Storage: -20 °C

Storage Comment: -20°C
