## Overview

|                      |   |
|----------------------|---|
| Quantity:            | 200 µL  |
| Target:              | Protein B-Myc (Bmyc)                            |
| Binding Specificity: | AA 119-146, C-Term                              |
| Reactivity:          | Mouse   |
| Host:                | Rabbit  |
| Clonality:           | Polyclonal                                      |
| Conjugate:           | This Protein B-Myc antibody is conjugated to PE |
| Application:         | Western Blotting (WB), ELISA                    |

## Product Details

|                             |  |
|-----------------------------|--|
| Immunogen:                  | Rat Mycb antibody is generated from rabbits immunized with a KLH conjugated synthetic between 119-146 amino acids selected from the C-terminal region of rat Mycb. |
| Isotype:                    | IgG  |
| Cross-Reactivity:           | Mouse (Murine)   |
| Cross-Reactivity (Details): | Calculated cross reactivity: Mo  |
| Characteristics:            | Mycb, CT (Mycb, Bmyc, Protein B-Myc) (PE)  |
| Purification:               | Purified by Protein A affinity chromatography.   |

## Target Details

|         |                      |
|---------|----------------------|
| Target: | Protein B-Myc (Bmyc) |
|---------|----------------------|

## Target Details

---

Alternative Name: [Mycb \(Bmyc Products\)](#)

NCBI Accession: [NP\\_001013181](#)

UniProt: [P15063](#)

## Application Details

---

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2.

Storage: 4 °C

Storage Comment: 4°C ,Do Not Freeze
