

Datasheet for ABIN2312453
anti-MYLPF antibody (AA 1-170)

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	MYLPF
Binding Specificity:	AA 1-170
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This MYLPF antibody is un-conjugated
Application:	ELISA

Product Details

Immunogen:	Full-length recombinant corresponding to aa1-170 from human MYLPF (AAH12571) with GST tag. MW of the GST tag alone is 26kD.
Clone:	3H3
Isotype:	IgG2a kappa
Cross-Reactivity:	Human
Cross-Reactivity (Details):	Calculated cross reactivity: Hu
Characteristics:	MYLPF (Myosin Regulatory Light Chain 2, Skeletal Muscle Isoform, Fast Skeletal Myosin Light Chain 2, MLC2B, DKFZp779C0757, HUMMLC2B, MGC13450)
Purification:	Purified by Protein A affinity chromatography.

Target Details

Target:	MYLPF
Alternative Name:	MYLPF (MYLPF Products)
Pathways:	Myometrial Relaxation and Contraction

Application Details

Application Notes:	Optimal working conditions should be determined by the investigator.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	Supplied as a liquid in PBS, pH 7.2.
Storage:	-20 °C
Storage Comment:	-20°C
