

Datasheet for ABIN2312456
anti-Myoneurin antibody (AA 501-611)

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	Myoneurin (MYNN)
Binding Specificity:	AA 501-611
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Myoneurin antibody is un-conjugated
Application:	Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunofluorescence (IF)

Product Details

Immunogen:	Partial recombinant corresponding to aa501-611 from human MYNN (NP_061127) with GST tag. MW of the GST tag alone is 26kD.
Clone:	3E8
Isotype:	IgG2a kappa
Cross-Reactivity:	Human
Cross-Reactivity (Details):	Calculated cross reactivity: Hu
Characteristics:	MYNN (Myoneurin, Zinc Finger And BTB Domain-Containing Protein 31, OSZF, ZBTB31, SBBIZ1)
Purification:	Purified by Protein A affinity chromatography.

Target Details

Target:	Myoneurin (MYNN)
Alternative Name:	MYNN (MYNN Products)
NCBI Accession:	NM_018657, NP_061127

Application Details

Application Notes:	Optimal working conditions should be determined by the investigator.
Restrictions:	For Research Use only

Handling

Format:	Liquid
Buffer:	Supplied as a liquid in PBS, pH 7.2.
Storage:	-20 °C
Storage Comment:	-20°C
