## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 200 µL                               |
| Target:              | NR2C1                                |
| Binding Specificity: | AA 515-545, C-Term                   |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This NR2C1 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

## Product Details

|                             |                                                                                                                                                                   |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | NR2C1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 515-545 amino acids from the C-terminal region of human NR2C1. |
| Isotype:                    | IgG                                                                                                                                                               |
| Cross-Reactivity:           | Human                                                                                                                                                             |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                   |
| Characteristics:            | NR2C1, CT (NR2C1, TR2, Nuclear receptor subfamily 2 group C member 1, Orphan nuclear receptor TR2, Testicular receptor 2)                                         |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                    |

## Target Details

|                   |                                                                                                                                                                                |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | NR2C1                                                                                                                                                                          |
| Alternative Name: | NR2C1 ( <a href="#">NR2C1 Products</a> )                                                                                                                                       |
| NCBI Accession:   | <a href="#">NP_001027458</a> , <a href="#">NP_001120834</a>                                                                                                                    |
| UniProt:          | <a href="#">P13056</a>                                                                                                                                                         |

## Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
