## Overview

|                      |                                                                                     |
|----------------------|-------------------------------------------------------------------------------------|
| Quantity:            | 200 µL                                                                              |
| Target:              | Orosomucoid 2 (ORM2)                                                                |
| Binding Specificity: | AA 19-201                                                                           |
| Reactivity:          | Human                                                                               |
| Host:                | Rabbit                                                                              |
| Clonality:           | Polyclonal                                                                          |
| Conjugate:           | This Orosomucoid 2 antibody is un-conjugated                                        |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Immunochromatography (IC) |

## Product Details

|                             |                                                                                                                                                                                                                                                     |

| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                                                                                                     |

## Product Details

|                  |                                                                     |
|------------------|---------------------------------------------------------------------|
| Characteristics: | Orosomucoid 2 (ORM2, AGP-B, AGP2, Alpha-1-Acid Glycoprotein Type 2) |
| Purification:    | Purified by immunoaffinity chromatography.                          |

## Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Target:           | Orosomucoid 2 (ORM2)                            |
| Alternative Name: | Orosomucoid 2 ( <a href="#">ORM2 Products</a> ) |

## Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.05 % sodium azide, 50 % glycerol.                                               |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
