

Datasheet for ABIN2329791
anti-PPY antibody (Mature-Region)

[Go to Product page](#)

Overview

Quantity:	100 µg
Target:	PPY
Binding Specificity:	Mature-Region
Reactivity:	Mouse
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This PPY antibody is un-conjugated
Application:	Western Blotting (WB), ELISA

Product Details

Immunogen:	A synthetic 14aa peptide from mouse PPY1. (KLH coupled). Epitope: ~Mature Peptide region.
Isotype:	IgG
Cross-Reactivity:	Mouse (Murine)
Cross-Reactivity (Details):	Calculated cross reactivity: Mo
Characteristics:	Pancreatic Polypeptide
Purification:	Purified by immunoaffinity chromatography.

Target Details

Target:	PPY
Alternative Name:	Pancreatic Polypeptide (PPY Products)

Target Details

Pathways: [Feeding Behaviour](#)

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2, 0.1 % BSA

Storage: 4 °C,-20 °C

Storage Comment: 4°C (-20°C Glycerol)
