## Overview

|                      |                                                                            |
|----------------------|----------------------------------------------------------------------------|
| Quantity:            | 50 µg                                                                      |
| Target:              | PAPSS2                                                                     |
| Binding Specificity: | AA 1-614                                                                   |
| Reactivity:          | Human                                                                      |
| Host:                | Mouse                                                                      |
| Clonality:           | Polyclonal                                                                 |
| Conjugate:           | This PAPSS2 antibody is un-conjugated                                      |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF) |

## Product Details

|                             |                                                                                                                                                                                             |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Full length human PAPSS2, aa1-614 (NP_004661.2).                                                                                                                                            |
| Isotype:                    | IgG                                                                                                                                                                                         |
| Cross-Reactivity:           | Human                                                                                                                                                                                       |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                                             |
| Characteristics:            | PAPSS2 (PAPS Synthase 2, PAPSS 2, 3'-phosphoadenosine 5'-phosphosulfate Synthase 2, ATPSK2, Bifunctional 3'-phosphoadenosine 5'-phosphosulfate Synthase 2, Sulfurylase Kinase 2, SK 2, SK2) |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                                              |

### Target Details

|                   |                                                                                                           |
|-------------------|-----------------------------------------------------------------------------------------------------------|
| Target:           | PAPSS2                                                                                                    |
| Alternative Name: | PAPSS2 ( <a href="#">PAPSS2 Products</a> )                                                                |
| NCBI Accession:   | <a href="#">NM_004670</a> , <a href="#">NP_004661</a>                                                     |
| Pathways:         | <a href="#">Glycosaminoglycan Metabolic Process</a> , <a href="#">Ribonucleoside Biosynthetic Process</a> |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                  |                                      |
|------------------|--------------------------------------|
| Format:          | Liquid                               |
| Buffer:          | Supplied as a liquid in PBS, pH 7.2. |
| Storage:         | -20 °C                               |
| Storage Comment: | -20°C                                |
