## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 200 µL                              |
| Target:              | PARG                                |
| Binding Specificity: | N-Term                              |
| Reactivity:          | Human                               |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This PARG antibody is un-conjugated |
| Application:         | ELISA, Immunohistochemistry (IHC)   |

## Product Details

|                             |                                                                                                                    |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Synthetic peptide selected from the N-terminal region of human Parg (KLH).                                         |
| Isotype:                    | IgG                                                                                                                |
| Cross-Reactivity:           | Human                                                                                                              |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                    |
| Characteristics:            | PARG, NT (Poly(ADP-ribose) Glycohydrolase, Poly (ADP-ribose) Glycohydrolase, PARG99, FLJ54459, FLJ60257, FLJ60456) |
| Purification:               | Purified by ammonium sulfate precipitation.                                                                        |

## Target Details

|         |      |
|---------|------|
| Target: | PARG |
|---------|------|

## Target Details

Alternative Name: PARG ([PARG Products](#))

NCBI Accession: [NP\\_003622](#)

UniProt: [Q86W56](#)

## Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: -20°C
