## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 50 µg                                |
| Target:              | PDZD3                                |
| Binding Specificity: | AA 1-491                             |
| Reactivity:          | Human                                |
| Host:                | Mouse                                |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This PDZD3 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

## Product Details

|                             |                                                                                                                                                                                                                                                                                                                           |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Full length human PDZD3, aa1-491 (NP_079067.2).                                                                                                                                                                                                                                                                           |
| Isotype:                    | IgG                                                                                                                                                                                                                                                                                                                       |
| Cross-Reactivity:           | Human                                                                                                                                                                                                                                                                                                                     |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                                                                                                                                                                           |
| Characteristics:            | PDZD3 (IKEPP, NHERF4, PDZK2, Na(+)/H(+) Exchange Regulatory Cofactor NHE-RF4, Intestinal and Kidney-enriched PDZ Protein, Natrium-phosphate Cotransporter Iia C-terminal-associated Protein 2, PDZ Domain-containing Protein 2, PDZ Domain-containing Protein 3, Sodium-hydrogen Exchanger Regulatory Factor 4, FLJ22756) |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                                                                                                                                                                            |

Target Details

|                   |                                                       |
|-------------------|-------------------------------------------------------|
| Target:           | PDZD3                                                 |
| Alternative Name: | PDZD3 ( <a href="#">PDZD3 Products</a> )              |
| NCBI Accession:   | <a href="#">NM_024791</a> , <a href="#">NP_079067</a> |

Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

Handling

|                  |                                      |
|------------------|--------------------------------------|
| Format:          | Liquid                               |
| Buffer:          | Supplied as a liquid in PBS, pH 7.2. |
| Storage:         | -20 °C                               |
| Storage Comment: | -20°C                                |
