## Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 200 µL                                 |
| Target:              | PIK3IP1                                |
| Binding Specificity: | AA 177-207, C-Term                     |
| Reactivity:          | Human                                  |
| Host:                | Rabbit                                 |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This PIK3IP1 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA           |

## Product Details

|                             |                                                                                                                                                                       |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | PIK3IP1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 177-207 amino acids from the C-terminal region of human PIK3IP1. |
| Isotype:                    | IgG                                                                                                                                                                   |
| Cross-Reactivity:           | Human                                                                                                                                                                 |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                       |
| Characteristics:            | PIK3IP1, CT (PIK3IP1, HGFL, Phosphoinositide-3-kinase-interacting protein 1, Kringle domain-containing protein HGFL)                                                  |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                        |

### Target Details

|                   |                                              |
|-------------------|----------------------------------------------|
| Target:           | PIK3IP1                                      |
| Alternative Name: | PIK3IP1 ( <a href="#">PIK3IP1 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_443112</a>                    |
| UniProt:          | <a href="#">Q96FE7</a>                       |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
