## **anti-PLEKHA1 antibody (Center, Internal Region)**

[Go to Product page](#)

### Overview

|                      |                                        |
|----------------------|----------------------------------------|
| Quantity:            | 200 µL                                 |
| Target:              | PLEKHA1                                |
| Binding Specificity: | AA 148-178, Center, Internal Region    |
| Reactivity:          | Human                                  |
| Host:                | Rabbit                                 |
| Clonality:           | Polyclonal                             |
| Conjugate:           | This PLEKHA1 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA           |

### Product Details

|                             |                                                                                                                                                                    |
|-----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | PLEKHA1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 148-178 amino acids from the Central region of human PLEKHA1. |
| Isotype:                    | IgG                                                                                                                                                                |
| Cross-Reactivity:           | Human                                                                                                                                                              |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                    |
| Characteristics:            | PLEKHA1, ID (PLEKHA1, TAPP1, Pleckstrin homology domain-containing family A member 1, Tandem PH domain-containing protein 1)                                       |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                     |

## Target Details

|                   |                                                                   |
|-------------------|-------------------------------------------------------------------|
| Target:           | PLEKHA1                                                           |
| Alternative Name: | PLEKHA1 ( <a href="#">PLEKHA1 Products</a> )                      |
| NCBI Accession:   | <a href="#">NP_001001974</a>                                      |
| UniProt:          | <a href="#">Q9HB21</a>                                            |
| Pathways:         | <a href="#">Platelet-derived growth Factor Receptor Signaling</a> |

## Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
