## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 200 µL                                |
| Target:              | POLR3G                                |
| Binding Specificity: | AA 194-223, C-Term                    |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This POLR3G antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|                             |                                                                                                                                                                     |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | POLR3G antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 194-223 amino acids from the C-terminal region of human POLR3G. |
| Isotype:                    | IgG                                                                                                                                                                 |
| Cross-Reactivity:           | Human                                                                                                                                                               |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                     |
| Characteristics:            | POLR3G, CT (POLR3G, DNA-directed RNA polymerase III subunit RPC7, DNA-directed RNA polymerase III subunit G, RNA polymerase III 32kD subunit)                       |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                      |

### Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | POLR3G                                     |
| Alternative Name: | POLR3G ( <a href="#">POLR3G Products</a> ) |
| NCBI Accession:   | <a href="#">NP_006458</a>                  |
| UniProt:          | <a href="#">O15318</a>                     |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
