## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 100 µg                              |
| Target:              | QARS                                |
| Binding Specificity: | AA 1-775                            |
| Reactivity:          | Human                               |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This QARS antibody is un-conjugated |
| Application:         | Western Blotting (WB)               |

## Product Details

|                             |                                                                 |
|-----------------------------|-----------------------------------------------------------------|
| Immunogen:                  | Full length human QARS, aa1-775 (NP_005042.1).                  |
| Isotype:                    | IgG                                                             |
| Cross-Reactivity:           | Human, Mouse (Murine), Rat (Rattus)                             |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo Rt                           |
| Characteristics:            | QARS (Glutamine-tRNA Ligase, GlutaminyI-tRNA Synthetase, GlnRS) |
| Purification:               | Purified by Protein A affinity chromatography.                  |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | QARS                                   |
| Alternative Name: | QARS ( <a href="#">QARS Products</a> ) |

Target Details

NCBI Accession: [NM\\_005051](#), [NP\\_005042](#)

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2.

Storage: -20 °C

Storage Comment: -20°C
