

Datasheet for ABIN2346600  
**anti-QRSL1 antibody (N-Term)**

[Go to Product page](#)

Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 200 µL                               |
| Target:              | QRSL1                                |
| Binding Specificity: | AA 128-156, N-Term                   |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This QRSL1 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

Product Details

|                             |                                                                                                                                                                   |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | QRSL1 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 128-156 amino acids from the N-terminal region of human QRSL1. |
| Isotype:                    | IgG                                                                                                                                                               |
| Cross-Reactivity:           | Human                                                                                                                                                             |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                   |
| Characteristics:            | QRSL1, NT (QRSL1, Glutamyl-tRNA(Gln) amidotransferase subunit A, mitochondrial, Glutaminyl-tRNA synthase-like protein 1)                                          |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                    |

### Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | QRSL1                                    |
| Alternative Name: | QRSL1 ( <a href="#">QRSL1 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_060762</a>                |
| UniProt:          | <a href="#">Q9H0R6</a>                   |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.                                                              |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | -20°C                                                                                                                  |
