

Datasheet for ABIN2350173 **anti-Resistin antibody (APC)**

[Go to Product page](#)

Overview

Quantity:	100 µL
Target:	Resistin (RETN)
Reactivity:	Mouse
Host:	Goat
Clonality:	Polyclonal
Conjugate:	This Resistin antibody is conjugated to APC
Application:	Western Blotting (WB), ELISA

Product Details

Immunogen:	Highly pure (> 98%) recombinant murine Resistin
Isotype:	IgG
Cross-Reactivity:	Mouse (Murine)
Cross-Reactivity (Details):	Calculated cross reactivity: Mo
Characteristics:	Resistin (ADSF, Adipose Tissue-Specific Secretory Factor, FIZZ3, Found in Inflammatory Zone) (APC)
Purification:	Purified by immunoaffinity chromatography.

Target Details

Target:	Resistin (RETN)
Alternative Name:	Resistin (RETN Products)

Target Details

Pathways: [Feeding Behaviour, Smooth Muscle Cell Migration](#)

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2.

Storage: 4 °C

Storage Comment: 4°C ,Do Not Freeze
