## Overview

|                      |                                           |
|----------------------|-------------------------------------------|
| Quantity:            | 50 µg                                     |
| Target:              | Regucalcin (RGN)                          |
| Binding Specificity: | AA 1-299                                  |
| Reactivity:          | Human                                     |
| Host:                | Mouse                                     |
| Clonality:           | Polyclonal                                |
| Conjugate:           | This Regucalcin antibody is un-conjugated |
| Application:         | Western Blotting (WB)                     |

## Product Details

|                             |                                                                   |
|-----------------------------|-------------------------------------------------------------------|
| Immunogen:                  | Full length human RGN, aa1-299 (NP_004674.1).                     |
| Isotype:                    | IgG                                                               |
| Cross-Reactivity:           | Human, Mouse (Murine)                                             |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo                                |
| Characteristics:            | RGN (Regucalcin, RC, Senescence Marker Protein 30, SMP-30, SMP30) |
| Purification:               | Purified by Protein A affinity chromatography.                    |

## Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | Regucalcin (RGN)                     |
| Alternative Name: | RGN ( <a href="#">RGN Products</a> ) |

Target Details

NCBI Accession: [NM\\_004683](#)

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2.

Storage: -20 °C

Storage Comment: -20°C
