## Overview

|                      |                                                                                   |
|----------------------|-----------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                            |
| Target:              | RNF168                                                                            |
| Binding Specificity: | AA 462-572                                                                        |
| Reactivity:          | Human                                                                             |
| Host:                | Mouse                                                                             |
| Clonality:           | Monoclonal                                                                        |
| Conjugate:           | This RNF168 antibody is un-conjugated                                             |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Immunofluorescence (IF) |

## Product Details

|                             |                                                                                                                                     |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Partial recombinant protein corresponding to aa462-572 from human RNF168 (NP_689830) with GST tag. MW of the GST tag alone is 26kD. |
| Clone:                      | 3E1                                                                                                                                 |
| Isotype:                    | IgG2b kappa                                                                                                                         |
| Cross-Reactivity:           | Human                                                                                                                               |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                     |
| Characteristics:            | RING Finger Protein 168 (RNF168, E3 Ubiquitin-protein Ligase RNF168, hRNF168)                                                       |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                      |

## Target Details

|                   |                                                                     |
|-------------------|---------------------------------------------------------------------|
| Target:           | RNF168                                                              |
| Alternative Name: | RING Finger Protein 168 ( <a href="#">RNF168 Products</a> )         |
| NCBI Accession:   | <a href="#">NM_152617</a> , <a href="#">NP_689830</a>               |
| Pathways:         | <a href="#">Production of Molecular Mediator of Immune Response</a> |

## Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

## Handling

|                  |                                      |
|------------------|--------------------------------------|
| Format:          | Liquid                               |
| Buffer:          | Supplied as a liquid in PBS, pH 7.2. |
| Storage:         | -20 °C                               |
| Storage Comment: | -20°C                                |
