## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 100 µg                              |
| Target:              | SGCE                                |
| Binding Specificity: | AA 1-437                            |
| Reactivity:          | Human                               |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This SGCE antibody is un-conjugated |
| Application:         | Western Blotting (WB)               |

## Product Details

|                             |                                                                                        |
|-----------------------------|----------------------------------------------------------------------------------------|
| Immunogen:                  | Full length human SGCE, aa1-437 (NP_003910.1).                                         |
| Isotype:                    | IgG                                                                                    |
| Cross-Reactivity:           | Human                                                                                  |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                        |
| Characteristics:            | Sarcoglycan epsilon (Epsilon-sarcoglycan, Epsilon-SG, ESG, SGCE, DYT11, UNQ433/PRO840) |
| Purification:               | Purified by Protein A affinity chromatography.                                         |

## Target Details

|                   |                                                       |
|-------------------|-------------------------------------------------------|
| Target:           | SGCE                                                  |
| Alternative Name: | Sarcoglycan epsilon ( <a href="#">SGCE Products</a> ) |

Target Details

NCBI Accession: [NM\\_003919](#), [NP\\_003910](#)

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2.

Storage: -20 °C

Storage Comment: -20°C
