

## Datasheet for ABIN2358978 **anti-SH3KBP1 antibody**

[Go to Product page](#)

### Overview

|              |                                                                            |
|--------------|----------------------------------------------------------------------------|
| Quantity:    | 200 µg                                                                     |
| Target:      | SH3KBP1                                                                    |
| Reactivity:  | Rat                                                                        |
| Host:        | Mouse                                                                      |
| Clonality:   | Monoclonal                                                                 |
| Conjugate:   | This SH3KBP1 antibody is un-conjugated                                     |
| Application: | Western Blotting (WB), Immunoprecipitation (IP), Immunochromatography (IC) |

### Product Details

|                             |                                                                          |
|-----------------------------|--------------------------------------------------------------------------|
| Immunogen:                  | 6His and HA tagged fusion protein corresponding to full length rat SETA. |
| Clone:                      | 5H43                                                                     |
| Isotype:                    | IgG1 kappa                                                               |
| Cross-Reactivity:           | Human, Mouse (Murine), Rat (Rattus)                                      |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo Rt                                    |
| Characteristics:            | SETA (CIN85, Ruk, SH3KBPI)                                               |
| Purification:               | Purified by Protein G affinity chromatography.                           |

### Target Details

|                   |                                           |
|-------------------|-------------------------------------------|
| Target:           | SH3KBP1                                   |
| Alternative Name: | SETA ( <a href="#">SH3KBP1 Products</a> ) |

## Target Details

Pathways: [EGFR Signaling Pathway](#), [EGFR Downregulation](#)

## Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Supplied as a liquid in 0.1M Tris glycine, pH 7.4, 0.15M sodium chloride, 0.05 % sodium azide, before the addition of glycerol to 30 %.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: 4 °C, -20 °C

Storage Comment: 4°C (-20°C Glycerol)
