## Overview

|                      |                                         |
|----------------------|-----------------------------------------|
| Quantity:            | 100 µg                                  |
| Target:              | SIGLEC10                                |
| Binding Specificity: | AA 20-525                               |
| Reactivity:          | Mouse                                   |
| Host:                | Rat                                     |
| Clonality:           | Monoclonal                              |
| Conjugate:           | This SIGLEC10 antibody is un-conjugated |
| Application:         | ELISA, Flow Cytometry (FACS)            |

## Product Details

|                             |                                                                                                        |
|-----------------------------|--------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Recombinant protein corresponding to aa20-525 from mouse Siglec-G, CHO-derived (Accession# NP_766488). |
| Clone:                      | 805903                                                                                                 |
| Isotype:                    | IgG2a                                                                                                  |
| Cross-Reactivity:           | Mouse (Murine)                                                                                         |
| Cross-Reactivity (Details): | Calculated cross reactivity: Mo                                                                        |
| Characteristics:            | Siglec 10 (Sialic Acid-binding Ig-like Lectin 10, Siglec like Protein 2, SLG2, UNQ477, PRO940)         |
| Purification:               | Purified by Protein A or G affinity chromatography.                                                    |

### Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Target:           | SIGLEC10                                        |
| Alternative Name: | Siglec 10 ( <a href="#">SIGLEC10 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_766488</a>                       |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                  |                                                     |
|------------------|-----------------------------------------------------|
| Format:          | Lyophilized                                         |
| Reconstitution:  | Reconstitute in sterile PBS.                        |
| Buffer:          | Supplied as a lyophilized powder in PBS, Trehalose. |
| Storage:         | -20 °C                                              |
| Storage Comment: | -20°C                                               |
