

Datasheet for ABIN2362397

**anti-SLC9A9 antibody (C-Term) (FITC)**[Go to Product page](#)

## Overview

|                      |                                                                                 |
|----------------------|---------------------------------------------------------------------------------|
| Quantity:            | 200 µL                                                                          |
| Target:              | SLC9A9                                                                          |
| Binding Specificity: | AA 551-579, C-Term                                                              |
| Reactivity:          | Human                                                                           |
| Host:                | Rabbit                                                                          |
| Clonality:           | Polyclonal                                                                      |
| Conjugate:           | This SLC9A9 antibody is conjugated to FITC                                      |
| Application:         | Western Blotting (WB), ELISA, Immunohistochemistry (IHC), Flow Cytometry (FACS) |

## Product Details

|                             |                                                                                                                                                             |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | KLH-conjugated synthetic peptide mapping to a fragment of residues within amino acids 551-579 in the C-terminal of human SLC9A9. UniProt Accession #Q8IVB4. |
| Isotype:                    | IgG                                                                                                                                                         |
| Cross-Reactivity:           | Human, Mouse (Murine)                                                                                                                                       |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu Mo                                                                                                                          |
| Characteristics:            | SLC9A9, CT (SLC9A9, NHE9, Sodium/hydrogen exchanger 9, Na(+)/H(+) exchanger 9, Solute carrier family 9 member 9) (FITC)                                     |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                              |

### Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | SLC9A9                                     |
| Alternative Name: | SLC9A9 ( <a href="#">SLC9A9 Products</a> ) |
| NCBI Accession:   | <a href="#">NP_775924</a>                  |
| UniProt:          | <a href="#">Q8IVB4</a>                     |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                  |                                      |
|------------------|--------------------------------------|
| Format:          | Liquid                               |
| Buffer:          | Supplied as a liquid in PBS, pH 7.2. |
| Storage:         | -20 °C                               |
| Storage Comment: | -20°C                                |
