## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µg                               |
| Target:              | SNRPB                                |
| Binding Specificity: | AA 1-240                             |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This SNRPB antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

## Product Details

|                             |                                                                                                                                   |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Full length human SNRPB, aa1-240 (NP_937859.1).                                                                                   |
| Isotype:                    | IgG                                                                                                                               |
| Cross-Reactivity:           | Human                                                                                                                             |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                   |
| Characteristics:            | SNRPB (Small Nuclear Ribonucleoprotein-associated Proteins B and B', snRNP-B, Sm Protein B/B', Sm-B/Sm-B', SmB/SmB', SNRPB1, COD) |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                    |

## Target Details

|         |       |
|---------|-------|
| Target: | SNRPB |
|---------|-------|

### Target Details

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Alternative Name: | SNRPB ( <a href="#">SNRPB Products</a> )                       |
| NCBI Accession:   | <a href="#">NM_198216</a> , <a href="#">NP_937859</a>          |
| Pathways:         | <a href="#">Ribonucleoprotein Complex Subunit Organization</a> |

### Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

### Handling

|                  |                                      |
|------------------|--------------------------------------|
| Format:          | Liquid                               |
| Buffer:          | Supplied as a liquid in PBS, pH 7.2. |
| Storage:         | -20 °C                               |
| Storage Comment: | -20°C                                |
