Datasheet for ABIN2371979
anti-Tau1 antibody

Overview

Quantity:	100 µg
Target:	Tau1 (LOC101055581)
Reactivity:	Cow
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Tau1 antibody is un-conjugated
Application:	Immunohistochemistry (IHC), Western Blotting (WB)

Product Details

Immunogen:	Purified denatured bovine microtubule associated proteins
Clone:	2Q123
Isotype:	IgG2a
Cross-Reactivity:	Cow (Bovine), Human, Rat (Rattus)
Cross-Reactivity (Details):	Calculated cross reactivity: Bo Hu Rt
Characteristics:	Tau1 (Tau Protein1, Microtubule-associated Protein, MAP)
Purification:	Purified immunoglobulin

Target Details

Target:	Tau1 (LOC101055581)
Alternative Name:	Tau1 (LOC101055581 Products)

Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.4.

Storage: 4 °C, -20 °C

Storage Comment: 4°C (-20°C Glycerol)
