## anti-Thymosin beta 10 antibody (AA 1-45)

#### Overview

Quantity:	100 μg
Target:	Thymosin beta 10 (TMSB10)
Binding Specificity:	AA 1-45
Reactivity:	Human
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This Thymosin beta 10 antibody is un-conjugated
Application:	ELISA, Western Blotting (WB)
Product Details	
Product Details Immunogen:	Full length recombinant corresponding to aa1-45 from human TMSB10 (AAH16025) with GST
	Full length recombinant corresponding to aa1-45 from human TMSB10 (AAH16025) with GST tag. MW of the GST tag alone is 26kD.
Immunogen:	tag. MW of the GST tag alone is 26kD.
Immunogen: Clone:	tag. MW of the GST tag alone is 26kD.  2E3
Immunogen:  Clone: Isotype:	tag. MW of the GST tag alone is 26kD.  2E3  IgG2a kappa
Immunogen:  Clone:  Isotype:  Cross-Reactivity:	tag. MW of the GST tag alone is 26kD.  2E3  IgG2a kappa  Human

#### **Target Details**

Pathways:	Regulation of Actin Filament Polymerization, Maintenance of Protein Location
Alternative Name:	TMSB10 (TMSB10 Products)
Target:	Thymosin beta 10 (TMSB10)

### **Application Details**

Application Notes:	Optimal working conditions should be determined by the investigator.
Restrictions:	For Research Use only

## Handling

Format:	Liquid
Buffer:	Supplied as a liquid in PBS, pH 7.2.
Storage:	-20 °C
Storage Comment:	-20°C
