## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 50 µg                               |
| Target:              | UNKL                                |
| Binding Specificity: | AA 1-277                            |
| Reactivity:          | Human                               |
| Host:                | Mouse                               |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This UNKL antibody is un-conjugated |
| Application:         | Western Blotting (WB)               |

## Product Details

|                             |                                                                                                                                                                   |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Full length human UNKL, aa1-277 (NP_001032202).                                                                                                                   |
| Isotype:                    | IgG                                                                                                                                                               |
| Cross-Reactivity:           | Human                                                                                                                                                             |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                   |
| Characteristics:            | UNKL (Putative E3 Ubiquitin-protein Ligase UNKL, RING Finger Protein Unkempt-like, Zinc Finger CCCH Domain-containing Protein 5-like, ZC3H5L, ZC3HDC5L, C16orf28) |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                    |

## Target Details

|         |      |
|---------|------|
| Target: | UNKL |
|---------|------|

Target Details

|                   |                                                             |
|-------------------|-------------------------------------------------------------|
| Alternative Name: | UNKL ( <a href="#">UNKL Products</a> )                      |
| NCBI Accession:   | <a href="#">NM_001037125</a> , <a href="#">NP_001032202</a> |

Application Details

|                    |                                                                      |
|--------------------|----------------------------------------------------------------------|
| Application Notes: | Optimal working conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                                |

Handling

|                  |                                      |
|------------------|--------------------------------------|
| Format:          | Liquid                               |
| Buffer:          | Supplied as a liquid in PBS, pH 7.2. |
| Storage:         | -20 °C                               |
| Storage Comment: | -20°C                                |
