## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µg                               |
| Target:              | VSNL1                                |
| Binding Specificity: | N-Term                               |
| Reactivity:          | Human                                |
| Host:                | Sheep                                |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This VSNL1 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA         |

## Product Details

|                             |                                                                                                                                                 |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | Recombinant protein corresponding to 191aa from human Visinin-like protein 1 and 10 extra aa, N-terminal His-tag expressed in E. coli (P62760). |
| Isotype:                    | IgG                                                                                                                                             |
| Cross-Reactivity:           | Human                                                                                                                                           |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                 |
| Characteristics:            | Visinin-like protein 1 (VSNL1, VILIP-1)                                                                                                         |
| Purification:               | Purified by immunoaffinity chromatography.                                                                                                      |

## Target Details

|         |       |
|---------|-------|
| Target: | VSNL1 |
|---------|-------|

## Target Details

Alternative Name: Visinin-Like Protein 1 ([VSNL1 Products](#))

## Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Lyophilized

Reconstitution: Reconstitute with 100 µL sterile dH2O. Let the lyophilized pellet dissolve completely.

Buffer: Supplied as a lyophilized powder in PBS, pH 7.2. No preservative added.

Preservative: Without preservative

Storage: -20 °C

Storage Comment: -20°C
