## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 200 µL                                |
| Target:              | ZNF367                                |
| Binding Specificity: | AA 299-327, C-Term                    |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This ZNF367 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|                             |                                                                                                                                                                     |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | ZNF367 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 299-327 amino acids from the C-terminal region of human ZNF367. |
| Isotype:                    | IgG                                                                                                                                                                 |
| Cross-Reactivity:           | Human                                                                                                                                                               |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                     |
| Characteristics:            | ZNF367, CT (ZNF367, ZFF29, Zinc finger protein 367, C2H2 zinc finger protein ZFF29)                                                                                 |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                      |

## Target Details

|         |        |
|---------|--------|
| Target: | ZNF367 |
|---------|--------|

### Target Details

Alternative Name: ZNF367 ([ZNF367 Products](#))

NCBI Accession: [NP\\_710162](#)

UniProt: [Q7RTV3](#)

### Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

### Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: -20°C
