## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 100 µg                                |
| Target:              | ZNF396                                |
| Binding Specificity: | AA 1-333                              |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This ZNF396 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                 |

## Product Details

|                             |                                                                                              |
|-----------------------------|----------------------------------------------------------------------------------------------|
| Immunogen:                  | Full length human ZNF396, aa1-333 (NP_665699.1).                                             |
| Isotype:                    | IgG                                                                                          |
| Cross-Reactivity:           | Human                                                                                        |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                              |
| Characteristics:            | ZNF396 (Zinc Finger Protein 396, Zinc Finger and SCAN Domain-containing Protein 14, ZSCAN14) |
| Purification:               | Purified by Protein A affinity chromatography.                                               |

## Target Details

|         |        |
|---------|--------|
| Target: | ZNF396 |
|---------|--------|

### Target Details

Alternative Name: ZNF396 ([ZNF396 Products](#))

NCBI Accession: [NM\\_145756](#), [NP\\_665699](#)

### Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

### Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2.

Storage: -20 °C

Storage Comment: -20°C
