## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 200 µL                                |
| Target:              | ZNF416                                |
| Binding Specificity: | AA 555-583, C-Term                    |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This ZNF416 antibody is un-conjugated |
| Application:         | Western Blotting (WB), ELISA          |

## Product Details

|                             |                                                                                                                                                                     |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                  | ZNF416 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 555-583 amino acids from the C-terminal region of human ZNF416. |
| Isotype:                    | IgG                                                                                                                                                                 |
| Cross-Reactivity:           | Human                                                                                                                                                               |
| Cross-Reactivity (Details): | Calculated cross reactivity: Hu                                                                                                                                     |
| Characteristics:            | ZNF416, CT (ZNF416, Zinc finger protein 416)                                                                                                                        |
| Purification:               | Purified by Protein A affinity chromatography.                                                                                                                      |

## Target Details

|         |        |
|---------|--------|
| Target: | ZNF416 |
|---------|--------|

## Target Details

Alternative Name: ZNF416 ([ZNF416 Products](#))

NCBI Accession: [NP\\_060349](#)

UniProt: [Q9BWM5](#)

## Application Details

Application Notes: Optimal working conditions should be determined by the investigator.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: Supplied as a liquid in PBS, pH 7.2, 0.09 % sodium azide.

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Storage: -20 °C

Storage Comment: -20°C
