## Overview

|              |                                       |
|--------------|---------------------------------------|
| Quantity:    | 100 µL                                |
| Target:      | NKAIN4                                |
| Reactivity:  | Human, Mouse                          |
| Host:        | Rabbit                                |
| Clonality:   | Polyclonal                            |
| Conjugate:   | This NKAIN4 antibody is un-conjugated |
| Application: | ELISA, Western Blotting (WB)          |

## Product Details

|               |                                                                                                         |
|---------------|---------------------------------------------------------------------------------------------------------|
| Immunogen:    | Antibody produced in rabbits immunized with a synthetic peptide corresponding a region of human NKAIN4. |
| Purification: | Antibody is purified by peptide affinity chromatography method.                                         |

## Target Details

|                   |                                                   |
|-------------------|---------------------------------------------------|
| Target:           | NKAIN4                                            |
| Alternative Name: | NKAIN4 ( <a href="#">NKAIN4 Products</a> )        |
| Background:       | The specific function of NKAIN4 is not yet known. |
| Molecular Weight: | 23 kDa                                            |
| Gene ID:          | 128414                                            |
| NCBI Accession:   | <a href="#">NP_690603</a>                         |

## Target Details

UniProt: Q8IVV8

## Application Details

Application Notes: NKAIN4 antibody can be used for detection of NKAIN4 by ELISA at 1:1562500. NKAIN4 antibody can be used for detection of NKAIN4 by western blot at 1 µg/mL, and HRP conjugated secondary antibody should be diluted 1:50,000 - 100,000.

Restrictions: For Research Use only

## Handling

|                  |                                                                                                                    |
|------------------|--------------------------------------------------------------------------------------------------------------------|
| Format:          | Lyophilized                                                                                                        |
| Reconstitution:  | Add 50 µL of distilled water. Final antibody concentration is 1 mg/mL.                                             |
| Concentration:   | 1 mg/mL                                                                                                            |
| Buffer:          | Antibody is lyophilized in PBS buffer with 2 % sucrose.                                                            |
| Handling Advice: | As with any antibody avoid repeat freeze-thaw cycles.                                                              |
| Storage:         | 4 °C/-20 °C                                                                                                        |
| Storage Comment: | For short periods of storage (days) store at 4 °C. For longer periods of storage, store NKAIN4 antibody at -20 °C. |
