Product Details

Immunogen:	Antibody produced in rabbits immunized with a synthetic peptide corresponding a region of human PAWR.
Purification:	Antibody is purified by peptide affinity chromatography method.

Target Details

Target:	PAWR
Alternative Name:	PAWR (PAWR Products)
Background:	The tumor suppressor WT1 represses and activates transcription. Anti-Prostate Apoptosis Response Protein Par-4 (PAWR) is a WT1-interacting protein that itself functions as a transcriptional repressor. It contains a putative leucine zipper domain which interacts with the zinc finger DNA binding domain of WT1. This protein is specifically upregulated during apoptosis of prostate cells.

Target Details
