**anti-DPP9 antibody (Internal Region)**[Go to Product page](#)**1** Image

## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 0.05 mg                             |
| Target:              | DPP9                                |
| Binding Specificity: | Internal Region                     |
| Reactivity:          | Human, Monkey, Gibbon, Gorilla      |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This DPP9 antibody is un-conjugated |
| Application:         | Immunohistochemistry (IHC)          |

## Product Details

|               |                                                                                                           |
|---------------|-----------------------------------------------------------------------------------------------------------|
| Immunogen:    | DPP9 antibody was raised against a synthetic peptide corresponding to an internal domain of DPP9 (Human). |
| Specificity:  | BLAST analysis of the peptide immunogen showed no homology with other human proteins.                     |
| Purification: | Immunoaffinity Chromatography                                                                             |

## Target Details

|                   |                                        |
|-------------------|----------------------------------------|
| Target:           | DPP9                                   |
| Alternative Name: | DPP9 ( <a href="#">DPP9 Products</a> ) |
| Gene ID:          | 91039                                  |
| UniProt:          | <a href="#">Q86T12</a>                 |

## Application Details

|                    |                                                                                                                            |
|--------------------|----------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | DPP9 antibody can be used in ELISA, Western Blot starting at 1:500 - 1:1000, and immunohistochemistry starting at 5 µg/mL. |
| Restrictions:      | For Research Use only                                                                                                      |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS, 0.1 % sodium azide.                                                                                               |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | As with all antibodies avoid freeze/thaw cycles.                                                                       |
| Storage:           | 4 °C/-80 °C                                                                                                            |
| Storage Comment:   | DPP9 antibody should be stored long term (months) at -80 °C and short term (days) at 4 °C.                             |
