Datasheet for ABIN2473042
anti-Collagen I/III antibody

Overview

Quantity:	0.5 mL
Target:	Collagen I/III
Reactivity:	Cow
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Collagen I/III antibody is un-conjugated
Application:	ELISA, Immunofluorescence (IF)

Product Details

Immunogen:	Bovine collagen type I and III from skin
Isotype:	IgG
Specificity:	This antibody reacts with both Collagen I and III. Less than 0.5 % reactivity was observed with bovine albumin and immunoglobulins. Collagen is located in the extracellular matrix of connective tissues. It is part of the interacting network of proteoglycans and proteins that provides a structural framework for both soft and calcified connective tissues.
Characteristics:	Purified IgG
Purification:	Purified

Target Details

Target:	Collagen I/III
Alternative Name:	COLLAGEN I/III (Collagen I/III Products)

Target Details

Gene ID: 282187, 282188, 510833

UniProt: [P02453](#), [P02465](#), [P04258](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Lyophilized
