Datasheet for ABIN2473044
anti-Collagen I/III antibody

Overview

Quantity:	0.5 mL
Target:	Collagen I/III
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Collagen I/III antibody is un-conjugated
Application:	ELISA, Immunohistochemistry (Frozen Sections) (IHC (fro)), Immunofluorescence (IF)

Product Details

Immunogen:	Collagen types I and III from human placenta
Isotype:	IgG
Specificity:	This antibody is specific for human collagen types I and III, showing minimum cross reactivity with the following: Human collagen type IV>3 % Human collagen type V>2 %This antibody has been cross adsorbed against human plasma proteins. Human plasma proteins do not interfere with the binding of This antibody to collagen.
Characteristics:	Purified IgG
Purification:	Purified

Target Details

Target:	Collagen I/III
Alternative Name:	COLLAGEN I/III (Collagen I/III Products)

Target Details

Gene ID: 1277, 1278, 1281

UniProt: [P02452](#), [P02461](#), [P08123](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Lyophilized

Concentration: 0.1 mg/mL
