## Overview

|              |                                                                                                                  |
|--------------|------------------------------------------------------------------------------------------------------------------|
| Quantity:    | 0.5 mg                                                                                                           |
| Target:      | IL-10 (IL10)                                                                                                     |
| Reactivity:  | Human                                                                                                            |
| Host:        | Rat                                                                                                              |
| Clonality:   | Monoclonal                                                                                                       |
| Conjugate:   | This IL-10 antibody is un-conjugated                                                                             |
| Application: | Western Blotting (WB), ELISA, Flow Cytometry (FACS), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|                  |              |
|------------------|--------------|
| Clone:           | JES3-12G8    |
| Isotype:         | IgG2a        |
| Characteristics: | Purified IgG |
| Purification:    | Purified     |

## Target Details

|                   |                                         |
|-------------------|-----------------------------------------|
| Target:           | IL-10 (IL10)                            |
| Alternative Name: | IL-10 ( <a href="#">IL10 Products</a> ) |
| Gene ID:          | 3586                                    |
| UniProt:          | <a href="#">P22301</a>                  |

## Target Details

---

Pathways: [Cellular Response to Molecule of Bacterial Origin](#), [Regulation of Leukocyte Mediated Immunity](#), [Production of Molecular Mediator of Immune Response](#), [Maintenance of Protein Location](#), [Cancer Immune Checkpoints](#)

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

## Handling

---

Format: Liquid

Concentration: 1.0 mg/mL

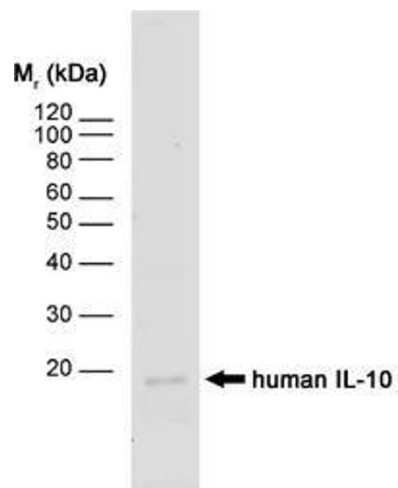

Preservative: Without preservative

## Publications

---
