Datasheet for ABIN2476625 **anti-Streptokinase antibody**

Overview

Quantity:	1 mL
Target:	Streptokinase
Reactivity:	Streptococcus
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Streptokinase antibody is un-conjugated
Application:	ELISA

Product Details

Immunogen:	Streptokinase bacterial protein prepared from Lancefield strain of Streptococcus-beta hemolyticus.
Isotype:	IgG
Specificity:	This antibody is specific for streptokinase, a metallo-enzyme produced by various strains of Streptococcus. It is 415 amino acids in length with a MW of approximately 47 kDa. Streptokinase can be used as an anti thrombotic because it can liquify blood clots by converting plasminogen to plasmin.
Characteristics:	Purified IgG
Purification:	Purified

Target Details

Target:	Streptokinase

Target Details

Abstract: [Streptokinase Products](#)

Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: 5.0 mg/mL
