**anti-CD11c antibody**[Go to Product page](#)**2** Publications

## Overview

|              |                                                                                                     |
|--------------|-----------------------------------------------------------------------------------------------------|
| Quantity:    | 2 mL                                                                                                |
| Target:      | CD11c (ITGAX)                                                                                       |
| Reactivity:  | Dog, Cystophora cristata (Hooded seal)                                                              |
| Host:        | Mouse                                                                                               |
| Clonality:   | Monoclonal                                                                                          |
| Conjugate:   | This CD11c antibody is un-conjugated                                                                |
| Application: | Flow Cytometry (FACS), Immunoprecipitation (IP), Immunohistochemistry (Frozen Sections) (IHC (fro)) |

## Product Details

|                   |                                                            |
|-------------------|------------------------------------------------------------|
| Clone:            | CA11-6A1                                                   |
| Isotype:          | IgG1                                                       |
| Cross-Reactivity: | Cystophora cristata (Hooded seal), Raccoon (Procyon lotor) |
| Characteristics:  | Tissue Culture Supernatant                                 |

## Target Details

|                   |                                                                                                                       |
|-------------------|-----------------------------------------------------------------------------------------------------------------------|
| Target:           | CD11c (ITGAX)                                                                                                         |
| Alternative Name: | CD11c ( <a href="#">ITGAX Products</a> )                                                                              |
| Background:       | Synonyms: INTEGRIN ALPHA X CHAIN                                                                                      |
| Pathways:         | <a href="#">Complement System</a> , <a href="#">Activated T Cell Proliferation</a> , <a href="#">Integrin Complex</a> |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Liquid

---
