## Overview

|              |                                             |
|--------------|---------------------------------------------|
| Quantity:    | 0.1 mg                                      |
| Target:      | TNFRSF4                                     |
| Reactivity:  | Human, Cat                                  |
| Host:        | Mouse                                       |
| Clonality:   | Monoclonal                                  |
| Conjugate:   | This TNFRSF4 antibody is conjugated to FITC |
| Application: | Flow Cytometry (FACS)                       |

## Product Details

|                   |                                                                       |
|-------------------|-----------------------------------------------------------------------|
| Clone:            | 7D6                                                                   |
| Isotype:          | IgG1                                                                  |
| Cross-Reactivity: | Human                                                                 |
| Characteristics:  | Purified IgG conjugated to Fluorescein Isothiocyanate Isomer 1 (FITC) |

## Target Details

|                   |                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------|
| Target:           | TNFRSF4                                                                                        |
| Alternative Name: | CD134 ( <a href="#">TNFRSF4 Products</a> )                                                     |
| Background:       | Synonyms: OX40                                                                                 |
| Pathways:         | <a href="#">Production of Molecular Mediator of Immune Response, Cancer Immune Checkpoints</a> |

## Application Details

---

Application Notes: Optimal working dilution should be determined by the investigator.

---

Restrictions: For Research Use only

---

## Handling

---

Format: Liquid

---

Concentration: 0.1 mg/mL

---

## Publications

---
