anti-DLG4 antibody (Atto 594)

Go to Product page

#### Overview

Quantity:	100 μg
Target:	DLG4
Reactivity:	Rat
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This DLG4 antibody is conjugated to Atto 594
Application:	Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF), Immunocytochemistry (ICC), Antibody Array (AA)

#### **Product Details**

Immunogen:	Recombinant rat PSD-95	
Clone:	7E3	
Isotype:	lgG1	
Specificity:	Detects ~100 kDa. An additional protein of >100 kDa is also detected. Additional cross-reactive bands are detected at ~75 kDa and 50 kDa in rat and mouse samples.	
Cross-Reactivity:	Cow, Human, Mouse, Rat	
Purification:	Protein G Purified	

## Target Details

Target:	DLG4	

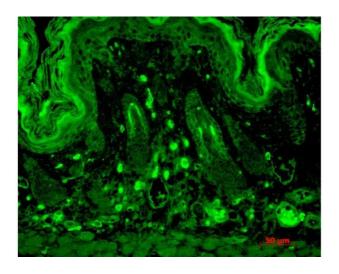

## **Target Details**

Alternative Name:	PSD95 (DLG4 Products)		
Background:	Postsynaptic Density protein 95 (PSD95), also known as Synapse associated protein 90 kDa, is		
	a member of the membrane-associated guanylate kinase (MAGUK) family of proteins. PSD95 is		
	a scaffolding protein and is involved in the assembly and function of the postsynaptic density		
	complex (1). These family members consist of an N-terminal variable segment followed by		
	three amino-terminal PDZ domains, an upstream SH3 domain and an inactive carboxyl-termina		
	guanylate kinase (GK) domain. The first and second PDZ domain localize NMDA receptors and		
	K+ channels to synapses, and the third binds to neuroligins which are neuronal cell adhesion		
	molecules that interact with b-neurexins and form intercellular junctions. PSD-95 also binds to		
	neuronal nitric oxide synthase, possibly through interactions between PDZ domains present on		
	both proteins (2). Thus different PDZ domains of PSD-95 might be specialized for distinct		
	functions (3, 4). PSD95 participates in synaptic targeting of AMPA receptors through an indirect		
	manner involving Stargazin and related transmembrane AMPA receptor regulatory proteins		
	(TARPs) (5). The protein is implicated in experience dependent plasticity and plays an		
	indispensable role in learning (6). Mutations in PSD95 are associated with autism (7).		
Gene ID:	29495		
NCBI Accession:	NP_062567		
UniProt:	P31016		
Pathways:	Regulation of Muscle Cell Differentiation, Synaptic Membrane, Skeletal Muscle Fiber		
	Development, Asymmetric Protein Localization, Regulation of long-term Neuronal Synaptic		
	Plasticity		
Application Details			
Application Notes:	• WB (1:1000)		
	• IHC (1:1000)		
	• ICC/IF (1:100)		
	<ul> <li>optimal dilutions for assays should be determined by the user.</li> </ul>		
Comment:	1 μg/ml was sufficient for detection of PSD-95 on 20 μg rat brain tissue extract by ECL		
	immunoblot analysis using Goat Anti-Mouse IgG: HRP as the secondary.		
	For Research Use only		
Restrictions:	For Research Use only		
Restrictions: Handling	For Research Use only		

#### Handling

Concentration:	1 mg/mL
Buffer:	PBS pH 7.4, 50 % glycerol, 0.09 % sodium azide, Storage buffer may change when conjugated
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C
Storage Comment:	Conjugated antibodies should be stored at 4°C

#### **Immunohistochemistry**

Image 1. Immunohistochemistry analysis using Mouse Anti-PSD95 Monoclonal Antibody, Clone 7E3. Tissue: backskin. Species: Mouse. Fixation: Bouin's Fixative and paraffinembedded. Primary Antibody: Mouse Anti-PSD95 Monoclonal Antibody at 1:100 for 1 hour at RT. Secondary Antibody: FITC Goat Anti-Mouse (green) at 1:50 for 1 hour at RT. Localization: Basal cell staining in the epidermis, some hair follicle staining, dermal staining.

#### **Western Blotting**

**Image 2.** Western Blot analysis of Rat brain membrane lysate showing detection of PSD95 protein using Mouse Anti-PSD95 Monoclonal Antibody, Clone 7E3. Primary Antibody: Mouse Anti-PSD95 Monoclonal Antibody at 1:1000.

#### **Immunohistochemistry**

**Image 3.** Immunohistochemistry analysis using Mouse Anti-PSD95 Monoclonal Antibody, Clone 7E3 . Tissue: Neocortex. Species: Rat. Primary Antibody: Mouse Anti-PSD95 Monoclonal Antibody at 1:1000.
