| Quantity: | 100 μL |
|--------------|---|
| Target: | HSPB8 |
| Reactivity: | Human |
| Host: | Rabbit |
| Clonality: | Polyclonal |
| Conjugate: | This HSPB8 antibody is conjugated to PerCP |
| Application: | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF), Immunocytochemistry (ICC), Immunoprecipitation (IP) |

Product Details

| Immunogen: | Human HSP22 |
|-------------------|---|
| Specificity: | Detects ~22 kDa. Does not cross-react with HSP27 or alpha-crystallin. |
| Cross-Reactivity: | Human, Mouse, Rat |
| Purification: | Peptide Affinity Purified |

Target Details

| Target: | HSPB8 |
|-------------------|---|
| Alternative Name: | HSP22 (HSPB8 Products) |
| Background: | HSP22 (HSPB8) is a 196-amino acid protein that is a member of the small heat shock protein |
| | super-family and the human protein is most closely related to HSP27. Similar to most other sHSPs, HSP22 is predominately transcribed in skeletal muscle and heart, as well as the |

| placenta (1). HSP22 is a monomeric protein which interacts with HSPB1. It displays | | |
|---|--|--|
| temperature-dependent chaperone activity. In a two hybrid screen, HSPB8 interacted | | |
| preferentially with a triple aspartate form of HSP27 which mimics HSP27 phosphorylated at | | |
| Ser15, Ser78, and Ser82, as compared to wild-type HSP27 (2). HSPB8 has two binding domains | | |
| (N and C Terminal) that are specific for different binding partners, and has the ability to bind | | |
| itself and other sHSPs (3). The chaperone-like activity is of great importance to the function of | | |
| HSP22 in various processes including proliferation, apoptosis and macro autophagy (4). | | |
| Mutations in the HSPB8 gene are associated with the inherited peripheral neuropathies, | | |
| autosomal dominant distal hereditary motor neuropathy type IIA (dSMA) and axonal Charcot- | | |
| Marie-Tooth disease type 2L (CMT2L) (5). | | |

Gene ID: 26353

NCBI Accession: NP_055180

UniProt: Q9UJY1

Application Details

Application Notes: • WB (1:1000)

- ICC/IF (1:100)
- IHC (1:100)
- optimal dilutions for assays should be determined by the user.

Comment: A 1:1000 dilution of ABIN2486745 was sufficient for detection of HSP22 in 10 μg of rat tissue

 $\label{thm:linear} \mbox{lysate by colorimetric immunoblot analysis using Goat anti-rabbit IgG: HRP as the secondary}$

antibody.

Restrictions: For Research Use only

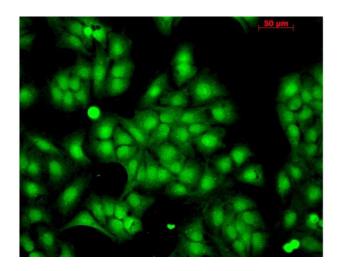

Handling

| Format: | Liquid |
|--------------------|--|
| Concentration: | 1 mg/mL |
| Buffer: | PBS pH 7.4, 50 % glycerol, 0.09 % sodium azide, Storage buffer may change when conjugated |
| Preservative: | Sodium azide |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage: | 4 °C |

Storage Comment:

Conjugated antibodies should be stored at 4°C

Images

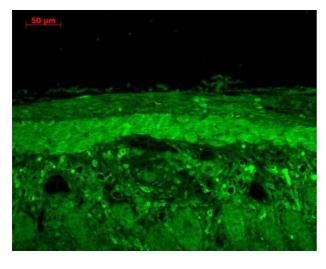

Immunofluorescence (fixed cells)

Image 1. Immunocytochemistry/Immunofluorescence analysis using Rabbit Anti-HSP22 Polyclonal Antibody. Tissue: HaCaT cells. Species: Human. Fixation: Cold 100% methanol at -20C for 10 minutes. Primary Antibody: Rabbit Anti-HSP22 Polyclonal Antibody at 1:100 for 12 hours at 4°C. Secondary Antibody: FITC Goat Anti-Rabbit at 1:50 for 1-2 hours at RT in dark. Localization: Nuclear Staining.

Western Blotting

Image 2. Western blot analysis of Rat Skeletal muscle lysates showing detection of HSP22 protein using Rabbit Anti-HSP22 Polyclonal Antibody . Load: 15 μg protein. Block: 1.5% BSA for 30 minutes at RT. Primary Antibody: Rabbit Anti-HSP22 Polyclonal Antibody at 1:1000 for 2 hours at RT. Secondary Antibody: Donkey Anti-Rabbit IgG: HRP for 1 hour at RT.

Immunohistochemistry

Image 3. Immunohistochemistry analysis using Rabbit Anti-HSP22 Polyclonal Antibody . Tissue: backskin. Species: Mouse. Fixation: Bouin's Fixative Solution. Primary Antibody: Rabbit Anti-HSP22 Polyclonal Antibody at 1:100 for 1 hour at RT. Secondary Antibody: FITC Goat Anti-Rabbit (green) at 1:50 for 1 hour at RT. Localization: Epidermis positive, dermal staining.

Please check the product details page for more images. Overall 4 images are available for ABIN2486745.
