Soluble Endothelial Protein C Receptor (SEPCR) ELISA Kit[Go to Product page](#)

Overview

Quantity: 96 tests

Target: Soluble Endothelial Protein C Receptor (SEPCR)

Reactivity: Human

Method Type: Sandwich ELISA

Detection Range: 0.625 ng/mL - 40 ng/mL

Minimum Detection Limit: 0.625 ng/mL

Application: ELISA

Product Details

Purpose: Human sEPCR ELISA Kit is an ELISA kit against Human sEPCR.

Sample Type: Plasma, Serum

Analytical Method: Quantitative

Detection Method: Colorimetric

Sensitivity: < 0.375 ng/mL

Characteristics: Human sEPCR ELISA Kit is an ELISA kit against Human sEPCR.

Target Details

Target: Soluble Endothelial Protein C Receptor (SEPCR)

Alternative Name: Endothelial Protein C Receptor (sEPCR) ([SEPCR Products](#))

Application Details

Application Notes: Stability: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5 % within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout. Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.
Standard Form: Lyophilized

Comment: The stability of the kit is determined by the rate of activity loss. The loss rate is less than 5% within the expiration date under appropriate storage conditions. To minimize performance fluctuations, operation procedures and lab conditions should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same user throughout.

Plate: Pre-coated

Restrictions: For Research Use only

Handling

Storage: 4 °C/-20 °C

Storage Comment: Upon receipt, store the kit according to the storage instruction in the kit's manual.

Expiry Date: 6 months
